**FRUITS, VEGETABLES AND FLOWERS**

**CLASS : III**

**TASK : 1**

Answer the following questions after reading the passage

**“FRUIT OR VEGETABLE”**

What is a fruit? What is a vegetable? Both fruits and vegetables grow from plants. They are both very healthy? But how can we tell them apart?

A fruit is usually very sweet. An apple is a fruit, and it is very sweet. A strawberry is a fruit, and it is very sweet. An orange is a fruit and very sweet. But not all fruits are very sweet. A tomato is a fruit, but it is not very sweet.

So what is a fruit? A fruit grows from a flower and it contains seeds inside of it. An apple grows from the flower of an apple tree. Similarly strawberry grows from flower of a strawberry bush and orange from the flower of an orange tree. Also tomato grows from the flower of a tomato plant. And all contains seeds. All of these grow from flowers and contain seeds and they are fruits.

Now let's talk about vegetable. A vegetable usually isn't sweet. Broccoli is a vegetable and it is not sweet. A radish is a vegetable, and it is not sweet. But not all vegetables are not sweet. A sweet potato is a vegetable, and it is very sweet.

So what is a vegetable? A vegetable grows from the earth and it does not contain seeds inside of it. Broccoli, lettuce, radish and sweet potato grows from earth and does not contain seeds. That is why they are vegetables.

Answer the following questions

- 1) According to the passage, why is a tomato a fruit?
- 2) Based on the above information is radish a fruit or vegetable?
- 3) What is a vegetable?
- 4) What is a fruit?
- 5) Name some vegetables and fruits?
